

CSE461 - HOMEWORK2 REPORT

EMRE SEZER - 1901042640

In order to test my homework, you need to open “CSE461-HW2.sln” file and run the project. I developed this project using Visual Studio 2022. I provided all of the minimum requirements of the homework.

You can move around with W, A, S, D buttons and jump with Space button, and exit the game with Esc button. You can look around using mouse.
